Home Page – (decision-tech.com) - Desktop

- ❖ Problem: Hovering over each of the “What We Do” icons generates a request to reload the icon image, resulting in extra data transferred for no purpose

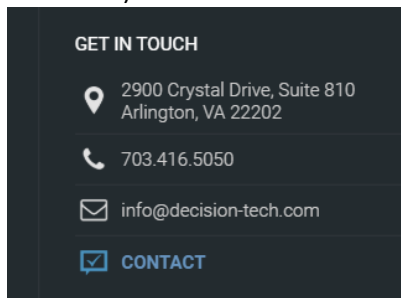

- ❖ Problem: Banner for “Why Decision Tech” is not centered
 - Everything else on the page seems to be centered, or centered with another element.

- ❖ Problem: “When Results Matter” down arrow icon actually refreshes page, taking user to the top.

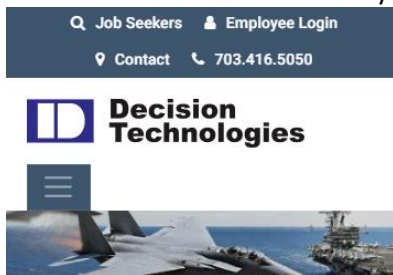

- ❖ Problem: Footer “Contact” link redirects to top of page.
 - Also, Address and Phone number have inconsistent hover properties where they change color and cursor changes to “select text”. I suggest removing that for the address, and making the phone be a link to call (similar to header).

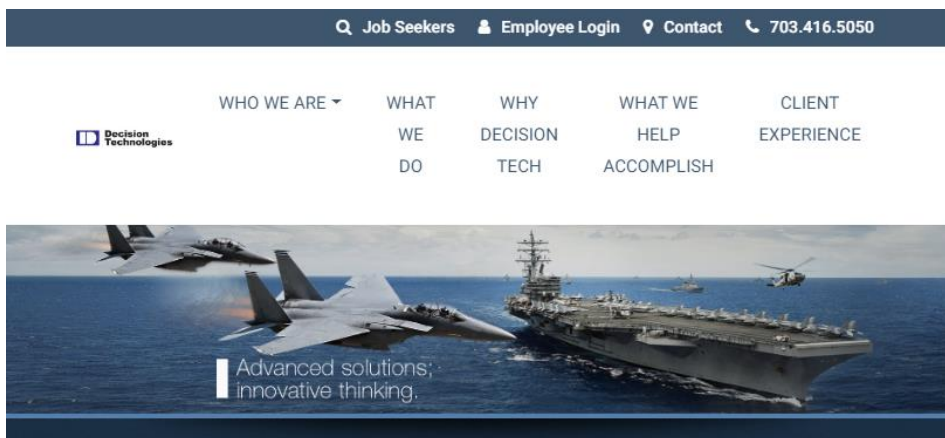

Home Page – (decision-tech.com) – Mobile

- ❖ Problem: Logo size is not fully responsive. The hamburger menu gets pushed to the next line on smallest screens such as iPhone 5 and Galaxy S5.

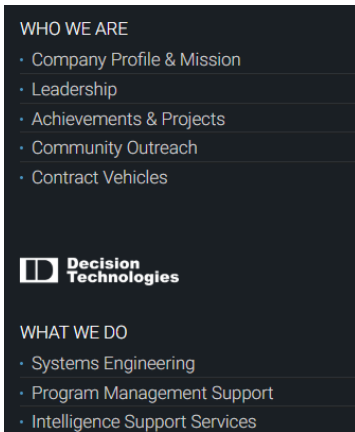

- ❖ Problem: navigation is poorly designed for mid-size screens (tablets or landscape-oriented phones).
 - For this size screen, the navigation should use the hamburger menu for two reasons: Logo size should be significant and mobile devices have no hover, so the “Who We Are” dropdown has no effect.

- ❖ Problem: “What We Do” icons have a side margin light blue color, except for “Program Management Support”

- ❖ Problem: The footer spacing and location for company logo breaks up the navigation items.
 - The Decision Technologies logo should be moved to a different part of the footer so that links flow smoothly.

Company Profile & Mission – (/company-profile-mission) – Desktop

- ❖ Problem: “Request a Call” form allows non-numbers as valid phone number

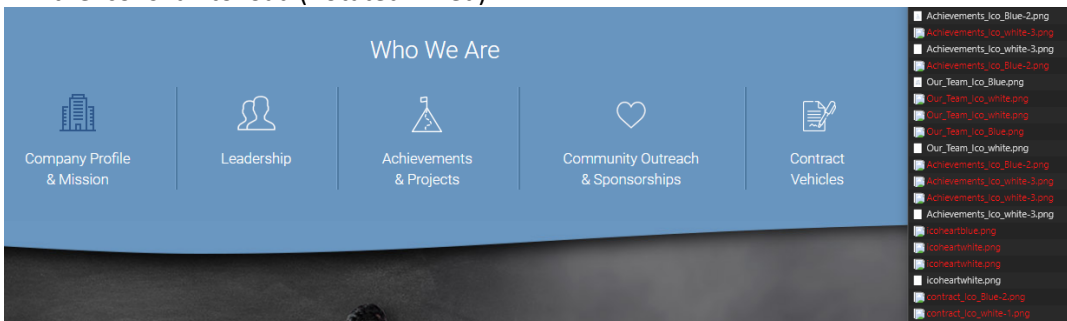

☒ Request

Company

Contact *

Phone *

- ❖ Problem: Hovering on “Who We Are” icons reloads the icon image, causing extra data to be transferred, and most of the icons fail to load (notated in red).

Company Profile & Mission – (/company-profile-mission) – Mobile

- ❖ Problem: Submit button should be at the bottom of the form

Leadership – (/mk_team_page/leadership) – Desktop

- ❖ Not necessarily a problem, but observation: All of the email links to contact each person is to info@decision-tech.com except Nammy, which lists her individual email. I'm not sure if this was intentional.

Community Outreach & Sponsorships – (/mk_category/community-outreach-and-sponsorships) - Mobile

- ❖ Problem: There is inconsistent margin for each of the sections, and the “Holiday Giving” and “Cinderella Ball” sections have no margin.

Holiday Giving

Spreading Holiday Cheer

Each year Decision Technologies seeks to deepen its commitment to the surrounding community and provide holiday presents for children and families in need. Partnering with various programs during the holiday season, we help ensure that every child experiences a happy holiday. Though the Adopt-a-Family

Contract Vehicles – (/mk_cat_flex/contract-vehicles) – Desktop

- ❖ Problem: Link to “More Details” for Seaport-e loads page for Task Orders and Team Capabilities. On the “Team Capabilities” tab, Michael Harmon is listed as “Chief of Staff”, should be “Director of Operations”.
- ❖ Problem: Link to “More Details” for Seaport Next Generation loads an empty page for Task Orders.

TASK ORDERS

TEAM CAPABILITIES

Michael Harmon / Director of Operations / (703) 416-5050 / mharmon@decision-tech.com

Solicitation	Task Order	Zone	Customer	Description	Award Date
--------------	------------	------	----------	-------------	------------

- ❖ For all the companies listed on Team Capabilities, is there a reason for them to link and be listed twice on the page, for what appears to be no reason?

➤ Alion Science and Technology	➤ Applied Tech
➤ AVW Technologies, Inc.	➤ BAE Systems Inc.
➤ Booz Allen Hamilton Inc.	➤ Delta Resources
➤ ELS, Inc.	➤ Engility Corp
➤ Gryphon Technologies, LC	➤ ICI Services
➤ Kratos Defense & Rocket Support Services, Inc.	➤ L3 Unidyne
➤ Oasis Systems LLC	➤ Quality Innov
➤ Tech-Marine Business	➤ Technology I
➤ The Probitas Project, Inc.	➤ Thor Solutions
➤ W R Systems, Ltd	➤ Zenetex, LLC
➤ Herren Associates, Inc.	

Alion Science and Technology

Return to List

Seaport-e – (/mk_taskorders_page/task-orders-seaport-e) – Mobile

- ❖ Problem: The “Task Orders” table expands to side scroll, making navigation hidden from user. I think the best solution would be to pivot the table to be vertical on mobile so that all elements fit on screen without side scroll.

What We Do – (/mk_category/what-we-do) – Mobile

- ❖ Problem: Left and Right margin is inconsistent throughout the page. There is a white strip of padding on the right, and some sections' text has no left padding.

Why Decision Tech - (/mk_category/why-decision-tech) – Mobile

- ❖ Problem: This page has the same margin inconsistencies as the “What We Do” page above.

What We Help Accomplish – (/mk_category/what-we-help-accomplish) – Mobile

- ❖ Problem: This page has the same margin inconsistencies as the “What We Do” page above.

Job Seekers – (/job-seekers) – Mobile

- ❖ Problem: The job title gets cut off and there is no horizontal scroll. The same is true when the user clicks on a specific position to view the listing (shown on right).

Virginia Beach, VA

Radar Provisioner

USMC TPS-80 (G/ATOR) In-Service Engineering Age

Acquisition Logistician

Deputy Program Manager

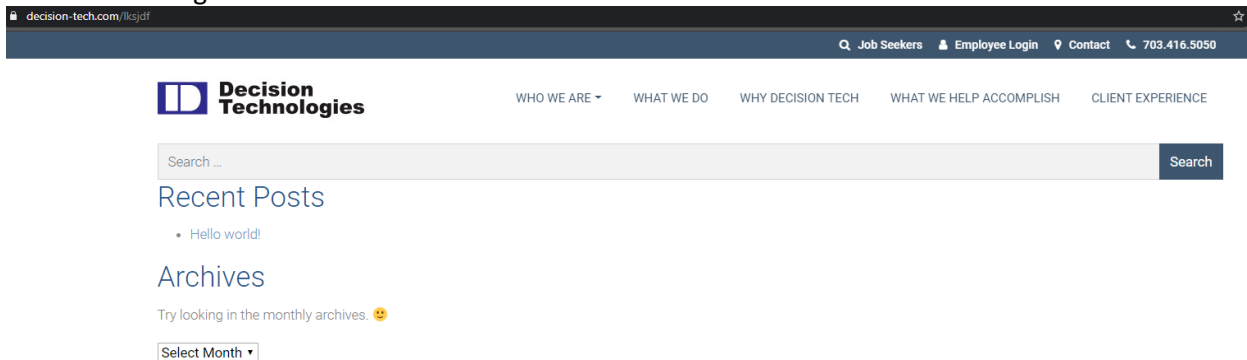

Join an award winning, fast growing, dynamic company providing the Federal Government, the Department of Defense and the Intelligence Community with acquisition support and the deployment of advanced technology cutting edge complex systems; as well as intelligence security & oversight support.
